From data to solution

- We do have some resources available ...
- ... but what products or services should we build ?
- Open source tools you'd like to have ?
 - E.g <https://github.com/Fedict/datarecipes>

What about Open Summer of Code ?

- OpenKnowledge community event
 - <https://osoc.be>
 - Sponsored by companies and public administrations
 - Students developing useful open source tools (July)
- Any suggestions for open data projects ?

What we want from you ...

Share your stories !

- Are you working on a thesis / paper on open data ?
- Did you create a stunning app / service ?
- Are you looking for specific datasets or tools ?
- Let us know, so we can:
 - Tweet and make some noise
 - Promote your work
 - Convince more organizations to open up data

Get in touch

- Website
 - <https://data.gov.be>
- Email
 - opendata@belgium.be
- Public chat room on Matrix
 - <https://app.element.io/#/room/#data.gov.be:matrix.org>

Thank you !
